Let's stay healthy! Girls Inc. will accept only vaccinated volunteers. We require volunteers and participants to wear face masks indoors and follow all CDC and local health authorities’ guidance at our event.

Program Description

Girls will engage in projects on social media realities, cyber security, stress management, website building, advocacy, and more. There is something for everyone in Eureka! Kick off the morning with an energizing check-in, followed by a day of life-skills, life-hacks, and life-lessons. Girls will also get to dive into unique STEM content, proving that there is a STEMinist in all of us.
